Career Objective

Motivated Computer Science graduate seeking a dynamic role in a forward-thinking organization to leverage expertise in software development, cloud technologies, and database management while contributing to innovative, high-impact solutions.

Education

Alva's Institute of Engineering and Technology 2021 – 2025
Bachelor of Engineering in Computer Science and Engineering

Government PU College, Hiriadka 2019 – 2021
Department of Pre-University Education

Perdoor High School, Perdoor 2018 – 2019
Secondary School Leaving Certificate

Skills

Programming Languages	C, Java, HTML5, CSS, JavaScript, React.js, RPA, MySQL
Developer Tools	VS Code, IDLE, GitHub, GitLab
Soft Skills	Teamwork, Leadership, Effective Communication

Internships

MERN Stack Developer Intern, Klonec Automation Systems Pvt. Ltd. (Krishitantra) Sep 2025 – Nov 2025
Developed responsive and user-friendly interfaces using React.js and implemented scalable backend APIs with Node.js and Express.js for the redesigned company website, focusing on performance and usability. Collaborated with cross-functional teams to add new features, optimize loading times, and ensure secure handling of application data.

Cloud Application Developer, Rooman Technologies Pvt Ltd Sep 2024 – Jan 2025
Gained hands-on experience with AWS and Azure services by building and deploying Python-based REST APIs, using Docker and Kubernetes for containerization and orchestration. Worked in agile teams with GitHub-based collaboration to deliver cloud-native applications and automation workflows.

Projects

- **Blood Donation Management System**
  Designed a web application using HTML, CSS, JavaScript, and MySQL to manage donor records, blood inventory, and hospital requests, improving traceability and response time.
- **Signature Verification System**
  Built a Python-based machine learning system with OpenCV and feature extraction techniques to authenticate handwritten signatures and strengthen identity verification workflows.
- **Medicinal Plant Detection and Identification System**
  Implemented a CNN-based deep learning model using Python and OpenCV to classify medicinal plants from leaf images, supporting research and digital cataloging of herbal species.

Certifications

- Certified in **Salesforce Virtual Internship** Program.
- Certified in **Advanced Java Programming** by CodeChef.
- Certified in **Computer Networks** by Infosys Springboard.
- Certified in **Programming in Java** by NPTEL.

Publications

- Presented a research review on AI applications in healthcare at the 4th International Conference on Recent Trends in Engineering, Technology Management 2024, highlighting current innovations and future directions.

Extra-Curricular Activities

- Volunteered at the International Cultural Jamboree, assisting with event coordination and on-ground management, demonstrating teamwork and leadership.

Declaration

To the best of my knowledge and belief, the information furnished above is true and correct.
